About This Content

Cruel, brutal and utterly ruthless.

The Dragan Character Pack is the 16th DLC for PAYDAY 2. It allows heisters to play as Dragan, the Croatian Infiltrator of the PAYDAY gang. Other than Dragan himself, it includes the Infiltrator perk deck, Dragan's mask, Dragan's Cleaver knife melee weapon and the Lion's Roar assault rifle.

Key Features

•**A new playable character** – It's time to introduce Dragan, the Infiltrator of the PAYDAY gang. Dragan may be a former cop, but he's a former Croatian cop, which means his methods make the MPDC look like timid babysitters. He was brought to America and accepted into the PAYDAY gang as a favor to The Butcher. While there were some early suspicions regarding his true loyalties, his ability and commitment are indisputable.

INFILTRATOR

NEW PERK DECK

•**Infiltrator perk deck** – The Infiltrator is an agent hired by a government or large criminal organization to obtain information about its enemies, or by a corporation to obtain industrial secrets from its competitors. The Infiltrator is a close combat specialist who knows how to use the environment in order to get the upper hand.

•**New assault rifle** – The Lion's Roar rifle is 765 mm (30.1 in) long, with a 500 mm (20 in) barrel. The whole rifle body is a mono-block construction made from high impact polymer. When looked at from the front, it looks something like a bugle. May this weapon hearken your glorious arrival, and may it help you perform the glorious melodies of PAYDAY.

•**New melee weapon** – The cleaver is a kind of knife primarily used for cutting through meat and bone, but rather than using precise cuts the cleaver delivers powerful hammer-like blows that rend even the most durable flesh. Cleavers have a long history of butchering human beings as well as livestock, as the Chinese Triad consider the Cleaver something of a trademark weapon. Easily concealable, inexpensive, and a marked effect on both the target's psyche and body. In short, you can go Full-Cow-Sacrifice-in-Apocalypse-Now-mode.

•**Dragan's mask** – With a background like the one Dragan has, there's no surprise he aspires to greatness in the criminal underworld. His mask represents a lot of his own characteristics, with the clear resemblance to some of the original crew's masks that tells of his ability to infiltrate and blend in while still having some features that tells of his unending ruthlessness. The Croatian checker on the forehead serves as a reminder for both himself and his enemies to be aware that he is not your common western street thug.

An excellent game for children and for those who just want to test their attentiveness. An excellent puzzle for finding differences.. Although after getting the route, I ran into a lot of problems with the Class 378, but thanks to the community, I have managed to sort this out easily.

With that fixed, the route is amazing, highly detailed in scenery and lots of speed changes to keep you going (there is even a power change!). The route may seem expensive, yes it's 17 miles and yes you only get 1 train. However, I feel a lot has gone into this route and therefore it is worth the money if this is your kind of route,

The scenarios included aren't really exciting, very few AI trains and the usual stopping passenger services. Fortunately, this should be replaced by workshop scenarios, where I have already seen some great ones.

Overall, I would highly recommend this route to those interested. There are lots of stations to call at and the route is going right into the heart of London, so for those who like to go fast, don't be surprised if you can't!. 5V10 Not the best by far, but not the worst solitaire game either. Wait for a sale, is my advise, and only get this if you've played just about all the other solitaire games out there.

I suspect this was made longer ago than other solitaire games. It feels more bare bones than others. And the number of cards you get on some levels is off. For instance, you need to uncover a hammer to turn over cards with stone on them but I kept clicking and clicking on the deck and not getting the card I needed. Now there are wild cards you can use. They are numbered and one time use. So you could use one of those if you have the one you need to continue. And in the store you can buy a random wild card. That was the first red flag that popped up in my head. Hmm....this might be one of those game that was phone/tablet game with in-app purchases and they want you to buy more wild cards. On Steam this cannot be done so we are stuck with the way it is. YYou'll have to do some grinding to build up your wild card deck and money to buy special help items. That's another red flag, because I did not gain enough money to buy all the help items! That is the first time that's happened to me in a solitaire game. Usually by the last level one has already bought them all.

Graphics look older and are just ok. Nothing special.

Sound: I don't know because I turned it off to listen to my own music while playing.

Final thoughts: Since Steam only has a yes/no review system I'm giving it a tentative yes. I only give "NO"s to really, really bad games. This one is just for solitaire fanatics who have played everything else and need something new to play. Not the best by far. But not really the worst. I've seen one that is blatantly skewed to in-app purchases and they didn't change it for Steam. This one isn't as bad as that, just middle of the pack (heh, heh, nice pun, eh? pack?). Its fun and you lose time in it, alot of dying but thats also fun. You dont lose everything you have built when you die, only things you have on you. The controls are kinda annoying and you sort of wrestle them abit. They have a counter until the next update, kinda like they did it in The Forest so hopefully they will add more. Alot of stuff to explore and the mission is to repair your space shuttle, and there is some enemies and metors that you have worry about. The game has a puzzle element to it and it really makes you wonder more about what happend. Great game! Simple but addictive :). This is a very challenging game. It is frustrating. It is also VERY fun and gives you a real sense of accomplishment for getting past obstacles and levels. I was lucky enough to have KillerPokeGames, the developer, in my stream last night and It was just an amazing time playing this. I was playing this for over 8 hours, died over 1500 times, and had a blast!. This game is bad and you should feel bad. ABSOLUTELY FANTASTIC! THIS game is totally the reason why I bought VR!

The atmosphere both visually and audibly totally immerses you in Victorian London it is stunning and this game is a massive bang for your buck with loads of different locations and all sorts of different tasks and gameplay types to complete.

I won't spoil the story but it is beautiful, funny, silly, scary but actually ingenious and I think steampunk fans will totally love it.

Strangely, whilst I really enjoyed the Story mode in here, the seek and destroy arcade style wave shooter mode version of the game is extremley addictive, at time of writing I haven't tried them all but will be back in there for another high score attempt soon.

Voice Commands are AMAZING! Springhorn guy is HILARIOUS Weapons are challenging but totally worth the learning

curve, favourite for me is the Magnets.

Nice to see a game go from demo and early access and not only be completed but tick all the boxes of what VR should be, this is a must have for any VR library IMHO.

. i just bought the tests of wisdom and speed and endless. AND NOW ITS OVER AND I BLEW 8 BUCKS!!!!

an enjoyable game that was made with love.. Excellent co-op tower defense. Great value.. Dark Souls is great. This rerelease is fine.. Well yeah, it's mostly a mobile game as there's so much Microtransactions AND THEY DONT EVEN USE IT PROPERLY.

For a free to play title that has mixed ratings I say this is a great game. I play the game like a true man or woman and don't turn into them Pay to Win people who likes to spend money on 50 Gold. Quite Addictive to be honest, BUT I want to see more community listening not ignoring the community.

Devs need to listen to the community, see their opinions on how to change games like these. It can help a bunch.

And If possible, maybe have these Realms styled a bit more differently compared to other player's Realms.

GREAT GAME KEEP UP THE GOOD WORK AND KEEP THIS GAME HAPPY AND ALIVE!

Also, I really hope this game will get future Updates. Especially updates like adding a Chat to talk to other people, or even, specific Units. or at least customizable.. Beautifully designed, awesome experience. I really really liked it. It's indeed Lovecraftian. Two thumbs up!. My review of Untamed: life of a cougar

pros

- My cubs are adorable
- it's not realistic but I'm going to pretend thats okay!
- cubs have different stages
- there is a tutorial
- You don't even have to have cubs in this game, I've played it like that.

Cons

- glitches
- Anything more than easy mode is a bit too extreme
- It like never updates I think this is as good as it will ever get

My experiences with this game:

~~me last year~~

I was roaming around and stuff. And found glitches. I also went into easy mode. And restarted the game multiple times. And had a hard time. Then, right when i was 9 days, almost at the 2nd stage, the stage i waited for, i was completely surrounded. And I had to restart the game. again. So, then i got another game and Oak died. (one of my cubs) then I finally got into the 2nd stage after a pretty chill time. But, right now, the male cougar is attacking me every 15 seconds. alongside several other creatures.

But..... When I'm not suffering its almost kind of fun. So, I recomend this game to anyone who strongly enjoys routines, has lots of patience, and prays to the cougar god every night because that is the only way you will enjoy this game, no jokes, no lies.

I'm giving this game

~2V10~ Because i don't pray to any cougar gods ever

and

~7V10~ because i strongly, wholeheartedly enjoy routines.

thank. Fake season Pass does not contain all DLC.
